# PUB MC CLAIM NAME/NUMBER INDEX

Use:  This index is used to find claim information by claim name and/or number.

Description:   This index is available by administrative state, county, district, and/or resource area. You can specify a disposition and a claim name/number.  The report includes claim name/number, serial number, claimant(s), geographic information (meridian, township, range, section, subdivision), location date, and case closed date if applicable.

NOTE: Data stored in our database is in **CAPITAL LETTERS**.  You must use **CAPITAL LETTERS** in the Selection Criteria or you will not receive any data on your report.

Procedure to find a particular claim by claim name:

1.      Select **Pub MC Claim Name/Index** from list on left side of LR2000 reports screen.

2.      Click **"Reset Selection Criteria"**.  Then click **"Admin State"**.

3.      Select the desired administrative state (or states) by typing the two-letter state code in the edit field, or by highlighting it from the list.  Click **"OK"**.

4.      Click **"Disposition"**. If you are looking for current claims select "Active".

5.      Select the desired case disposition(s) for your report by highlighting it from the list, and click  **"OK".**

6.      Click **"Claim Name/Number"**.

        **TIP**: The operator is defaulted to"Begins With".  This directs the system to find all claims beginning with the letters you type in the edit field.

        Type the Claim Name/Number using CAPITAL letters.  You may also type in just a part of claim name.  For example you are looking for the HOPE MINE the following are the options you can type:
        HOPE                    you will receive all the claim name/numbers beginning with HOPE
        HOPE MINE               you will receive all claim name/numbers beginning with HOPE
                                MINE

7.      Type the first few letters of the desired claim name (at least three) in the edit field, and click **"OK".**  The attached report sample shows results obtained by requesting active claims in Eastern States for claim names beginning with RED.

8.      Click **"Process Report"**.  See example of banner page and report, attached.

**NOTE:**  If you want a listing by claim name for all claims in a particular county or

district/resource area, click the appropriate button and enter the county or district/resource area codes from the Data Element Dictionary.

Choose your selection criteria carefully when building reports.  Asking for too much information (e.g., all claims in your state) will tie up the LR2000 system, your own computer, and the printer for a long time.
